A Peer-to-Peer Knowledge Sharing Platform

The open_board Team

August 7, 2025

Our Mission

```
def our_mission():
    """
    open_board is a peer-to-peer knowledge-sharing platform
    designed to break down academic silos.

    Our mission is to create a space where students from any field
    can present their passion projects and research in a way that is
    accessible and engaging to a non-specialist audience.
    """
```

The Vision

```
def the_vision():
    """
    We envision a community fueled by curiosity.

    It's an opportunity to traverse the vast landscape of
    diverse knowledge available at IISER,
    one fascinating talk at a time.

    """
```

What We Enable

- Cross-discipline understanding
- Public speaking & science communication
- Community building across academic backgrounds
- Encouragement for passion projects

What We Enable

- Cross-discipline understanding
- Public speaking & science communication
- Community building across academic backgrounds
- Encouragement for passion projects

Every talk is a TEDx talk. But chill.

No pressure, just good vibes and good ideas.
We learn and we don't judge.

Come over to the Dark Side
